

## WY LEGISLATURE IS FISCAL RESPONSIBLE...REALLY?

Are you under the impression that Cheyenne is really looking after your tax dollars in a reasonable way? Think again. Keep track of these people: Representatives Brown, L; Byron; Campbell, E.; Chestek; Clouston; Connolly; Davis; Erickson; Filer; Fornstrom; Geringer; Harshman; Jarvis; Larsen, L.; Larson, JT; Lawley; Lien; Nicholas; **Posey**; **Provenza**; Riggins; Sherwood; Singh; **Storer**; Styvar; Tarver; Thayer; Washut; Williams; Wylie and **Yin**, As well, these members of the Senate who stood for restoring the Governor's budget recommendations on second reading: Senators Anderson, Barlow, Brennan, Case, Cooper, Crago, Crum, Dockstader, Driskill, **Gierau**, Jones, Kolb, Landen, Love, Nethercott, Olsen, Pappas, **Rothfuss**, Schuler, Scott. [RINOS and **Dems**.]

These are the individuals who support Gov. Gordon's bloated budget proposal and who he publicly thanks. Gordon is no friend of average folk, working on ranches and farms. Folk who do their best to hold down two jobs and support their children. Gordon is the guy who doesn't know what it's like to spend 15 minutes standing at a sink trying to wash 12 hrs. of labor off his hands or worrying about the rent and insurance bills. He's the guy that has always inhabited a world where tax payers pay his way, pay for his house, his food and jet airplanes. He's the guy who worked for the Fed. in Kansas City, and has lived the good life in Cheyenne for 14 years as Wyoming's Treasurer and Governor. When conservative legislators tried to trim bloated UW money from the budget, Gov. Gordon cried foul. Why? Because he's a friend of Big Education and the Wyoming teacher's union. Did you know that Gov. Gordon formed PAC (Prosperity and Commerce) PAC to work *against* re-election campaigns of legislators that dare to stand up to his tax and spend program. Some of the contributors to this PAC? Bayer/Global (drug company), \$10,000.00, Altria Group (big tobacco), \$6,5000.00, Mark Gordon himself, \$150,000.00, to name a few.

Maybe you're asking, why do I care about legislators that live outside Park County? Because we are in this together. There are many of you that know people that live in Hot Springs, Bighorn, Teton and other surrounding counties. Call them and get them involved with campaigns that can rid us of the RINOS that infest some of their seats and support Gov. Gordon's agenda.

There are many folks in the legislature that really do care about your taxes. Many of them are here in Park County. Contact them.

GET INVOLVED.

Bob Berry, PCP treasure
